

La Strada graz

27th July – 4th August 2018

Invitation for Professionals Festival La Strada Graz 2018

Dear Colleagues, Dear Friends of La Strada,

Arriving from twelve nations, we are glad to invite you to meet the artists who will perform in and with Graz for this year's festival. Here they meet up with their local colleagues, together to permeate the city, explore limits, change perspectives and reflect on the themes of our time. Yet the principal actors of La Strada 2018 are the inhabitants of the city and it will only be through their active participation that the festival will become a one-off, unique experience.

... a great get-together!

The international networking activities and steady development of a Creation Center Graz have resulted in more coproductions at this year's La Strada than ever before – six of them authored in Austria. The wonderful project Foreign Tongues by the Austrian dance troupe **Liquid Loft**, along with the street opera by **aXe Graz**, were developed with support from the international **network IN SITU**. The puppet theatre performance called The Paper Man by the British **Improbable** group and one of the most exciting productions of New Circus, Bestias by **Baro d'evel**, are coproductions involving La Strada. When, at the close of the festival, French composer **Pierre Sauvageot** places his Grand Ensemble of musicians on the balconies of a residential block, the title will represent not only a great orchestra but also a large residential complex and indeed a great get-together. Get an accreditation as a Professional here and make use of the special festival price for hotel, catering and get the PRO-Rate for the tickets.

La Strada also has a new designed App, stay connected: schedule, tickets, finding your way through Graz ... So take one minute to download it [here](#)

Check out our programme on lastrada.at or as an ISSUU document.

We are looking forward to welcoming you in Graz,

Werner Schrempf / Artistic Director
